Detroit Hardware Manufacturing Co.

Manufacturers of

Architectural Builders' Hardware

2725 Wabash Avenue

Detroit, Mich.

To our friends
And others interested
In good hardware,

The old Chinese proverb "One picture is worth a thousand words", expresses exactly the thought which has prompted us in preparing the new catalogue we are sending you. It has been compiled expressly for your use, with the hope that it will help you in making selections of quality hardware.

While we are manufacturers of various standard and special designs of brass and bronze hardware, the "Anvil Brand" is our specialty, being the product of years of experience in the making of quality hardware. It is made of the best nickel silver obtainable, and is so designed by expert craftsmen that it has all of the physical properties making for strength, and producing a lasting finish.

You will find many special and unique designs which are appropriate where "something different" is desired. Our hand finishing insures you of individuality in all of our goods. Considering the quality of our line, we are sure you will find our prices extremely reasonable.

We hope that this new catalogue will prove helpful, and that you will give us an opportunity to be of service to you.

Yours very truly,

DETROIT HARDWARE MANUFACTURING COMPANY.

General Hardware Manufacturing Co.

1000 Broadway, New York, N.Y.

Dear Sir:

Thank you for

To our friends

and family

in good health

With the same pleasure, we also wish to express
to you, the thought which has been in our
mind, and we are sending you. It has been
a long time, with the hope that it will help you in making
a better use of your hardware.

While we are manufacturers of various standard and special
hardware of brass and bronze hardware, the "General Hardware Co."
being the product of years of experience in the making of
hardware. It is made of the highest quality of material, and
is designed to stand up to the most severe tests of the
hardware, and providing a lasting service.

You will find many special and unique designs which are
not to be found elsewhere. We are now in the process of
manufacturing a new line of hardware, consisting of
many of our line, we are sure you will find the most
satisfactory.

We hope that this new catalogue will prove helpful, and
that you will give us an opportunity to be of service to you.

Very truly yours,

General Hardware Manufacturing Co.

*"If you write a better book or preach a better sermon
or build a better mousetrap than your neighbor, the
world will make a beaten path to your door."*

—Emerson.

Detroit Hardware Manufacturing Company

The following pages include the more important items in our Antique Hardware Line:

SPECIAL HARDWARE

A great many of these items have been produced from sketches of our architectural friends, and we want our new clients as well as our old ones to feel that the suggestions contained herein are subject to change to meet your individual needs and taste.

METALS

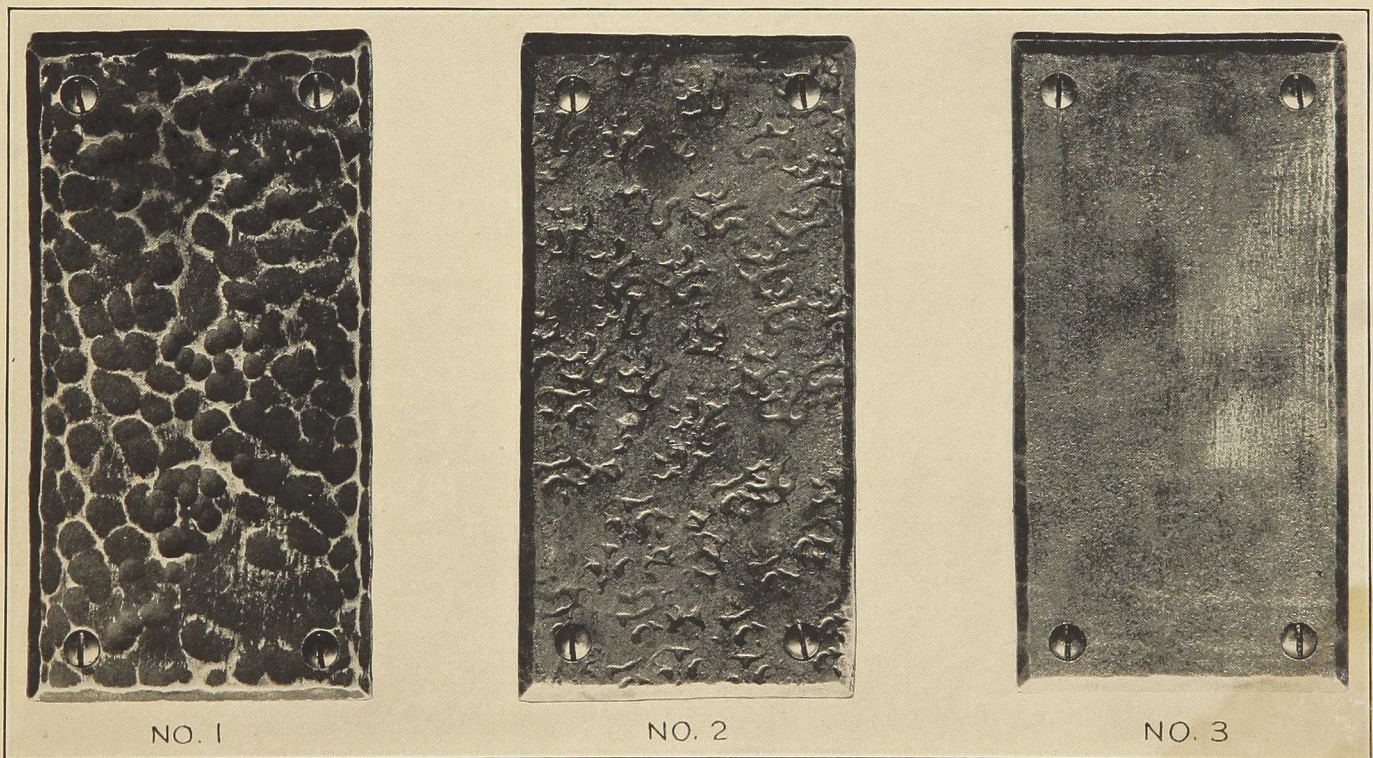

All items in hardware, unless otherwise mentioned, are produced in Cast Nickel, Silver and Cast Bronze.

Nickel Silver is probably the most practical metal used for Hardware, as it does not oxidize or corrode, and shows very little change after long use and exposure to the elements.

TOOLING

All items are cast smooth, and each piece is hand tooled, giving every separate item individual character as to surface.

The following cuts show the three regular surfaces furnished:

No. 1—Broad Deep Hammer Marks.

No. 2—Scaly Iron Surface.

No. 3—Coarse Sand Surface.

Special Surfaces furnished without extra charge.

Detroit Hardware Manufacturing Company

FINISHES

The following finishes are furnished regularly:

NICKEL SILVER BASE

- GS Finish: Dead Black Base, Highlights Burnished, Half Polished Iron Effect.
AB Finish: Armor Bright, French Gray Surface, relieved and waxed.
DB Finish: Dead Black, Not Relieved.
RC Finish: Armor Bright Base, treated with Iron Oxide, Rusty Iron Effect.

CAST BRONZE BASE

- EB Finish: Cast Bronze, oxidized and relieved.

DIRECTIONS FOR ORDERING

In ordering the finish, symbols should be prefixed to the number as follows:

- G1S 800 XS Denotes GS Finish with No. 1 Surface.
G2S 800 XS Denotes GS Finish with No. 2 Surface.
G3S 800 XS Denotes GS Finish with No. 3 Surface.

HINGE PLATES

Hinge Plates can be furnished with a return that will allow the plate to extend around the stop and connect with the butt, at an additional charge.

KNOBS AND LEVER HANDLES

Knobs and Lever Handles are furnished regularly with Diamond spindles, twenty threads to the inch. When so ordered they may be had for square hub locks and threaded to fit any standard make of spindle.

CUTTING PUSH PLATES AND DOOR PULLS

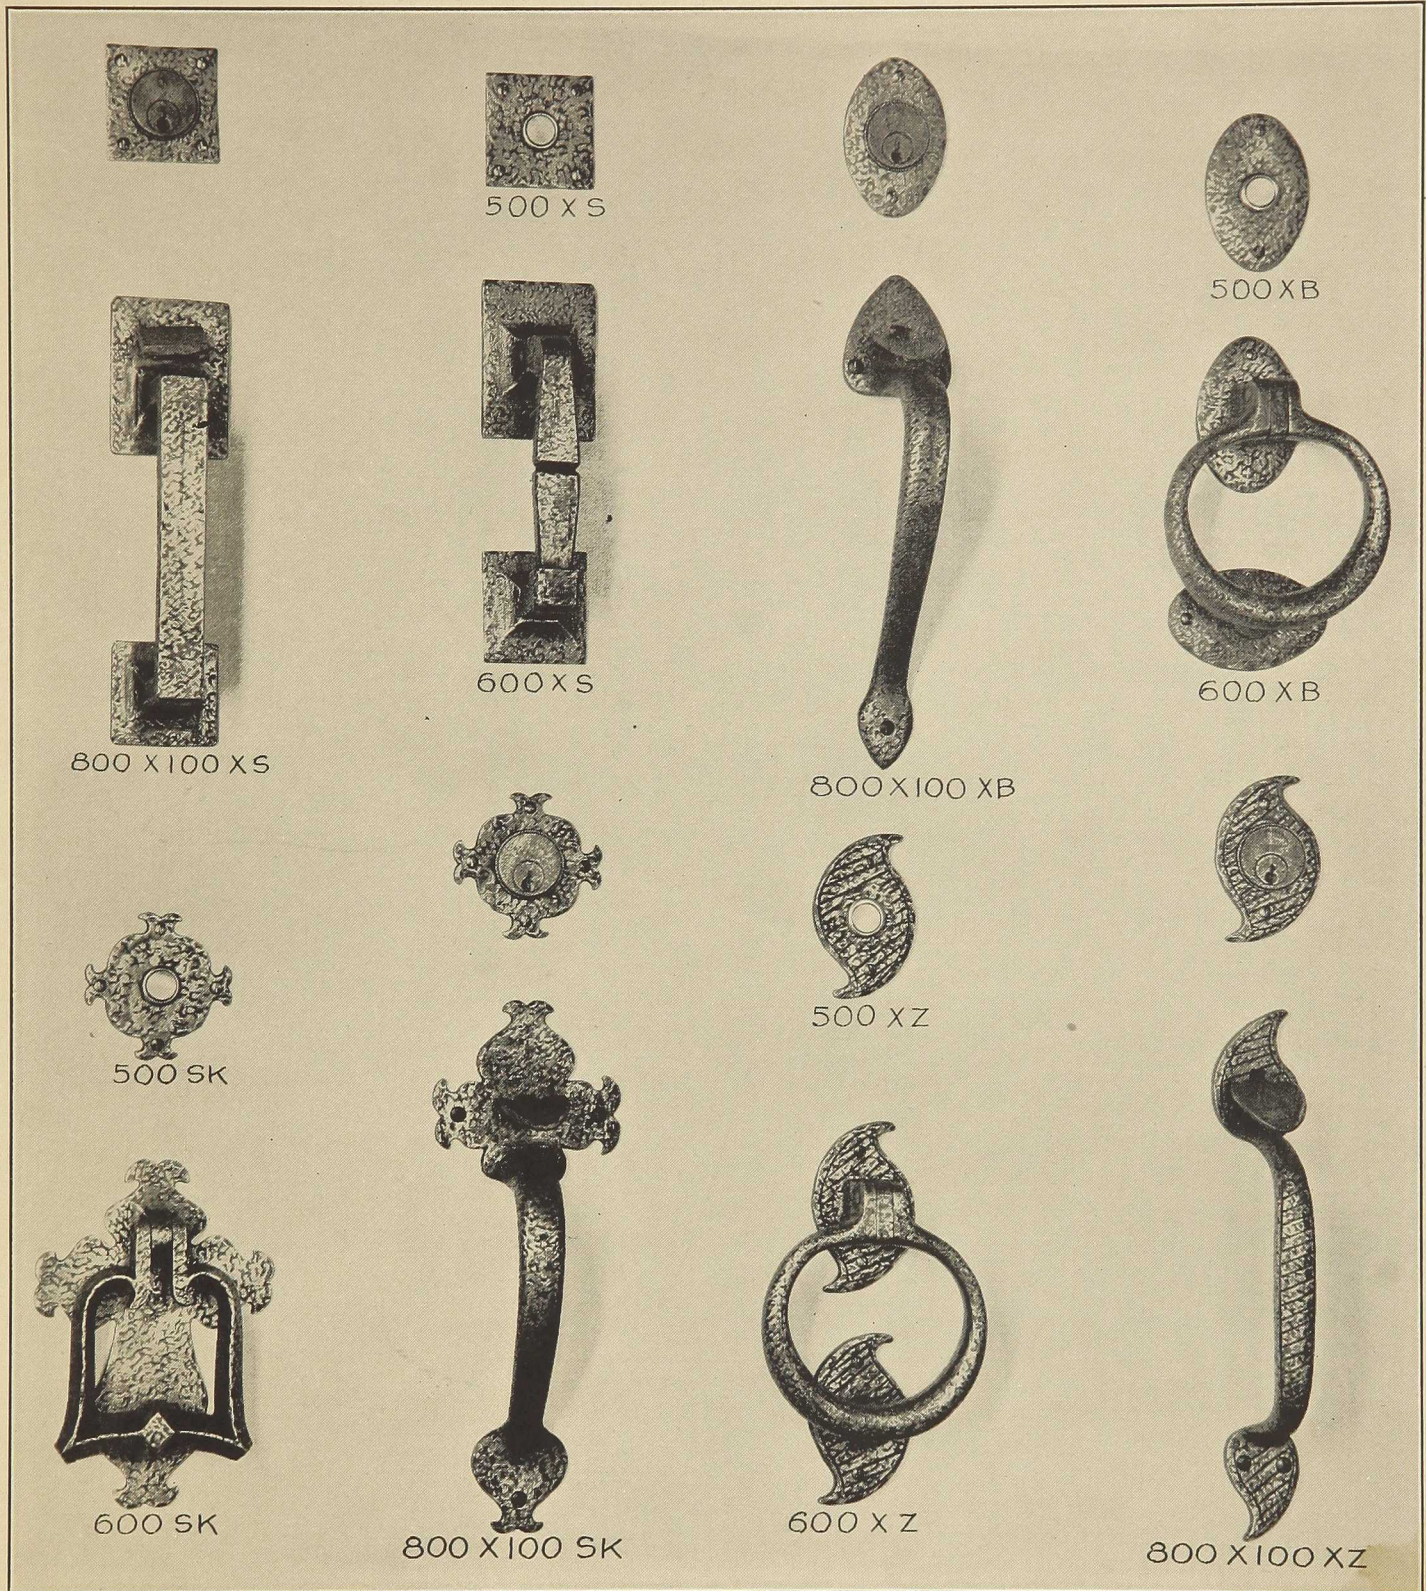

Push Plates and Door Pulls will be cut for either cylinders or bit key when so ordered without charge. When ordering give spacing.

DELIVERY

All items are carried in stock awaiting the final finish, and any reasonable order can be filled in two weeks after receipt.

SAMPLES

We will be pleased to submit samples for use on contract work.
